

# Allegheny – The Solution!

**A**s the world leader in information destruction, Allegheny can help you meet state and federal requirements mandated by the 1974 Federal Privacy Act, the Gramm-Leach-Bliley Act, and HIPAA regulations.

Today, thousands of banks, insurance companies, hospitals, government agencies, contract shredding services, and other organizations – including the majority of the Fortune 1000 – rely on Allegheny shredders for efficient, cost-effective destruction of their confidential materials.

Allegheny is the only company that manufactures all types of destruction equipment. But we offer more than quality equipment...we offer solutions!

- Professional evaluation and equipment consulting
- Custom designed complete systems to maximize productivity and reduce labor costs
- Free comprehensive on-site assessment for high volume applications

From collecting to processing to recycling, Allegheny's expertise will help solve your problem. That's why we're the total solution to your security needs!

## Built to Last

Allegheny designs, engineers and manufactures its equipment to withstand the most demanding applications.

- 100% American-made, offered to you at factory prices
- Built by skilled craftsmen utilizing state-of-the-art CAD/CAM design and manufacturing
- Highest capacity performance, from 500 lbs/hr. up to 25 tons/hr.
- Designed for ease of maintenance and servicing to avoid costly downtime
- Backed by the Strongest Warranty in the Industry and a 10-Year Guaranteed Trade-in Policy

# Complete Shredding Systems

**T**o maximize productivity, reduce labor costs, and turn your paper and products into recycling dollars, Allegheny also offers: Conveyors, Tipplers, Auto-Feed Systems™ and Balers.

We can custom design a complete shredding system to help you make the most of your investment. We'll help you design the physical layout of your shredding system, and provide a detailed diagram showing the optimal layout within your facility.

After your purchase of an Allegheny shredding system, we'll install it and train your personnel in safe, efficient operation and proper maintenance of your equipment.

Take advantage of Allegheny's more than 40 years of experience in information destruction. Call today for our free booklet and CD on our complete product line.

# Allegheny Shredders Total Shredding Solutions!

**World leader in reliable,  
cost-effective shredding systems  
for security, recycling, and  
waste reduction**

**High Capacity Shredders ■ Security Grinders  
& Cross-Shredding Systems  
■ Product & E-Scrap Shredders**

## High Capacity Shredders

**A**lleghey offers a complete line of high capacity shredders for secure document destruction. Whether you need a compact shredder for your office...a high volume centralized shredder for several departments...or a complete shredding system to service several locations...we have the shredder to meet your needs – and your budget.

### Allegheny 16-Series Shredders

Versatile, high-performance, durable. From 750 lbs. up to 1200 lbs. of paper per hour.

### Allegheny 100-Series Shredders

Powerful, rugged, long-lasting. From 1 ton up to 2-1/2 tons of paper per hour.

### Allegheny 1000-Series Shredders

High capacity, lasting performance, maximum recycling profits. From 3 tons up to 25 tons of paper per hour.

For maximum capacities, Allegheny's Advanced Auto-Feed™ System (shown) reduces labor costs by allowing one operator to do the work of two or three.

## Security Grinders & Cross-Shredding Systems

**W**hen the highest level of destruction is required, Allegheny's powerful Security Grinders provide secure, 'dump & run' destruction of documents, digital media, plastics, products and print waste. The Allegheny SelecShred™ adjustable screen provides even greater efficiency, allowing operators to adjust the screen size of their grinders with the simple push of a button.

### Allegheny Security Grinders

The highest level of destruction. From 1 ton up to 3 tons per hour.

Allegheny Cross-Shredding™ Systems produce a much finer shred and generate much greater throughput than conventional strip-cut shredding. This innovative technology utilizes a two-stage shredding process with a pre-shredder placed in front of a primary shredder.

### Allegheny Cross-Shredding Systems

The most secure destruction for high volume applications. Up to 25 tons per hour!

## Product & E-Scrap Shredders

**T**o address the growing problem of security risk and improper disposal posed by product and e-scrap waste, Allegheny has introduced a new line of versatile Product & E-Scrap Shredders.

Ideal for manufacturers, recyclers, return centers, and contract shredding services, these powerful, high performance shredders offer secure "crush and shred" destruction of products including hard drives, televisions, office equipment, small appliances, phones and electronics – all in a matter of seconds.

### Allegheny Product & E-Scrap Shredders

Reliable, cost-effective destruction of unwanted products and electronic equipment.

### Allegheny Hard Drive Shredders

For reliable, secure destruction of hard drives and electronic storage devices.

“ At Allegheny, we provide the most superior and reliable equipment to handle all your security and destruction needs. And we offer more than just equipment, we offer solutions – from collecting to processing to recycling for a profit! ”
